

# School District Account Management

Developed with our partner school districts to enable schools to work together smarter – saving time, money and resources.

## Smart teamwork between schools

Allowing school districts to reap the many benefits that come hand in hand with smart, cross-school working, our School District Account Management solutions make the tracking of assets, management of IT, resources and contracts simple and straightforward.

*“Parago is the only IT management system we have tried that handles a mixture of inventory assigned to staff members in multiple locations. It gives you an audit trail of each asset’s history, including identifying the user when barcodes are scanned by smartphone apps. It manages the software and hardware remotely alongside the physical inventory through automated discovery agents, which is important to us when keeping an eye on things centrally.”*

Vince Hulme | Northwest Tri County | Pennsylvania

**Don't just  
take our  
word for it...**

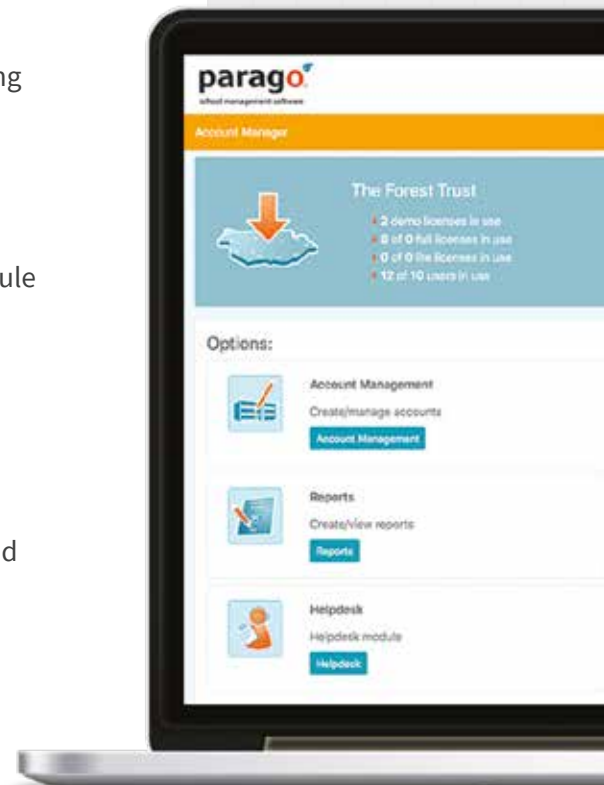

## Developed to meet the unique needs of school districts

This innovative module enables school districts to be accountable and make efficiency savings through central management:

- Prevent fraud and asset misappropriation
- Share resources effectively across schools
- Develop and implement procurement strategies
- Centralize services for ICT and premises staff
- Streamline contract management
- Implement digital signage
- Enhance policy control
- Track the leasing of IT assets

## Key features:

- Manage and oversee multiple sites
- Search for and share inventory across schools while generating a comprehensive audit history
- Deploy one-to-one devices to staff and students through the smartphone app
- Provide central support through the integrated Helpdesk module
- Securely manage user access and permissions
- View system usage in each school
- Use automated discovery agents across multiple sites to identify PCs, Macs, Chrome books and tablets
- Customizable reporting system for procurement forecasts, end of year financials, etc.
- Centralize contract management for cost savings
- School district central office account

enquiries@paragosoftware.com

*“The reporting features for procurement and audits were exactly what we were looking for. We looked at many different asset solutions and this is by far the best for schools, and cost is very reasonable. Parago’s service is impeccable and response time for any questions is superior.”*

Laura Lee Ehr Gott

Somers Central School District | New York

*“The use of smartphone apps through cloud-based technology is a fantastic way to manage IT inventory and simplifies the assignment of one-to-one devices across multiple schools. We felt Parago took security very seriously, especially the ability to be able to restrict individual user’s abilities to specific areas of the system. The umbrella ‘School District Account Manager’ module enables us to move inventory and report across multiple schools and these features are invaluable when doing annual audits.”*

Barbara Nesbitt

School District of Pickens County
