

Parago: a complete system

Digitize and streamline your district's IT and operations management processes

We believe you should work smarter, not harder.

For over ten years, we have provided the tools to help schools and districts to save time, money and resources while keeping on top of legislative compliance.

Parago enables schools and districts to achieve their goals with one integrated, centralized system for all operational management needs.

We work closely with districts to create a system that not only meets current requirements, but can help them adapt to change. We continuously make development upgrades to the system and we're delighted to have passionate customers working with us.

 **Multi School Account Manager**
Manage district-wide compliance, standardize estate management processes, share resources and centralize your district reporting

 **Asset, IT & Inventory**
Easily manage, track and audit your assets and devices

 **Maintenance & Operations**
Achieve total compliance with comprehensive checklists

 **Helpdesk Ticketing**
Manage IT and work order issues using a simplified workflow

 **Risk Management & Forms**
Innovate and streamline your risk management and analysis

 **Incident Management**
Simplify the tracking and management of your incidents

 **Workflow Manager**
Digitize dynamic and static workflows to reflect processes

 **e-Sign Document Manager**
The paperless distribution of policies and documents

 **Contract Manager**
Transform your contracts from passive lists to proactive tools

 **Capital & Project Manager**
Simplify your condition survey management and other projects

 **Room & Asset Booking**
Utilize your buildings, rooms and assets more effectively

“When choosing an IT and Asset Management software supplier, Parago had the simple, yet comprehensive, elegance we had been missing in our district for over a decade.”

Pete Just,
Director of Technology,
Metropolitan School District of
Wayne Township
